

Get on the fast track to get your results.

OAR is a complete OMR solution for any educational institute. It is an alternative to costly OMR scanners. It uses any normal scanner to check the answer sheet. The answer sheet used is any normal paper, so it is very cost effective and 100% accurate.

OAR is a latest concept and innovation in the field of OMR solutions, developed by Dovesoft. This product came into the existence through our extensive experience in the field of software development, hard work of our developers, and the need of our customers who do not want to buy the expensive OMR Scanners, which in addition need an appropriate maintenance and service.

OAR SYSTEM: Incorporating the flexibility of a computer system and the accuracy of OMR machinery. This includes the different reports for the results, student management and the back up of the database, as per user-defined interval. The total system is highly adaptable and expandable for the future requirements and addition if required by user. OAR system is highly compatible with Windows 98 and above version. In true words, OAR is a complete OMR solution for any educational institute.

CHECKING COPIES: OAR is able to check any format of OMR sheets with some rules. OAR can check bunch of answer sheets at one time, which means you can first scan all your sheets and then give just one command to check them. OAR provides various reports related to the result of the student.

ANSWER SHEET: You can use any type paper for your answer sheet, not compulsory to have a specific answer sheet as in OMR Scanners. Student can use any pen or pencil to fill the circle, HB pencil is not compulsory. You can use any printing quality to print the answer sheet. You can even use simple printout of the printer. This reduces your overall cost that was required to conduct the test.

INTERNET COMPATIBILITY: OAR is highly Internet compatible. OAR capable of sending emails to student about their result performance. By buying OAR, you also get an account on www.omrhome.com for uploading your desired result. This facility is absolutely free for one year.
