

Trustable, scalable & remarkable  
with **100% Accuracy**

Simply Design, Print, Scan & Go!

# VERIFICARE

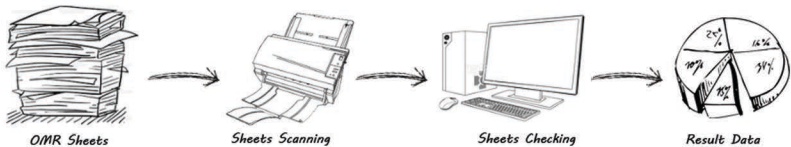

Easy & Effective Solution  
for Data Management  
& Examination

# VERIFICARE OVERVIEW

OMR/ICR/OCR & Barcode Technology

Vericare is an exceptional product that has been used & tested from years to accumulate data out of OMR Bubble sheets, survey forms, assessments, evaluations. Vericare is the only software that guarantees 100% accuracy, it is an economical & best solution for reading thousands of OMR Sheets within minutes. It has come up eliminating the solely dependencies over paper & scanner. Use your own office printer, Plain Paper Sheets or any scanner (Flatbed/ADF/MFP), VERIFICARE will read it all with a reckless speed & will get the data analysis on forefront. Vericare is a user friendly software that doesn't constraint you to create templates using excel/word or any other designing software instead allows you to design professional OMR Sheets using its in-built template designer.

## Prominent OMR technology

- 2000 + customer globally using OMR software.
- Create your design, print through normal printer and read with 100% accuracy.

## Stop investing in expensive OMR scanners and OMR forms

- No need to invest in bulky OMR scanners because we can read what they can read.
- Hassel free reading of traditional OMR forms and plain paper OMR forms.

## Advance technology with an edge of Artificial Intelligence

- Software intelligence to identify Anti – cheat detection and wrong anskey detection

## Compatible with any normal scanner

- Use any normal image scanner, ADF scanner or multi-function device to scan OMR forms.
